

Rotary Public School

Sector-22, Gurugram

Project: "VARDAAN – PLASTIC TO PLANT "

Tree Plantation Drive by Interactors of Interact Club of Rotary Public School In association with Rotary Club Gurgaon

With plastic pollution becoming a pressing global concern, the Interact Club of Rotary Public School, Gurgaon took the lead in demonstrating a sustainable effort to address the issue and organized a **Tree Plantation Drive under the Haryana Government Mega Project "Meri Maati Mera Desh" -Vasunda Vandan Campaign, Project Vardaan – From Plastic to Plant on 14.08.2023** in the school premises. The Chief Guest of the event was Capt.Indu Boken District Education Officer Gurugram. The event was attended by President Rotary Club Gurgaon and Chairman Rotary Service Trust Rtn.Manish Aggarwal, Chairman School Managing Committee PP Paramjit S Oberoi, esteemed Rotarians from Rotary Club Gurgaon, Mr. Rajesh Mittal, District Nodal Officer & Legal Service Authority Gurugram , RWA Presidents of nearby vicinities, students & teachers.

The tree plantation drive was initiated with an inspiring speech by Chief Guest of the day Cap.Indu Boken District Education Officer, Gurugram highlighting the importance of preserving the environment and the pivotal role that trees play in maintaining ecological balance. She emphasized how such initiatives are essential for the younger generation to understand their responsibility towards the planet and urged them to create "**Amrit Vatika**" of 250 plants

Under the clear skies and warm sunshine, students donned gardening gloves and picked up shovels to dig holes for the saplings. With careful guidance from their teachers and volunteers, the young planters planted a variety of native trees, including neem, banyan, mango, and peepal. These tree species were chosen to align with the local ecosystem and to promote biodiversity.

The event was an uplifting example of the positive impact that a united community can have on environmental conservation. It provided an opportunity for students to connect with nature, learn about sustainable practices, and foster a sense of responsibility towards the environment.

The success of this tree plantation drive has set a precedent for all and communities to follow. Rotary Public School 's commitment to environmental conservation and its inventive solution to repurpose plastic waste for a noble cause truly stand as an inspiration for others to emulate.

The waste collection bin was transformed into a flourishing oasis of greenery, symbolizing the potential for positive change when innovation and environmental responsibility converge.

GLIMPSES OF THE DAY
